newly discovered letters by lewis carroll an expanded selection of diary excerpts and a wealth of new biographical materials are some of the features of this revised norton critical edition this perennially

popular norton critical edition again reprints the 1897 editions of *Alice's Adventures in Wonderland* and *Through the Looking Glass* along with the 1876 edition of *The Hunting of the Snark*. Each text is fully annotated and the original illustrations are included. An unusually rich background section is arranged to correspond with three clearly defined periods in Lewis Carroll's life: letters and diary entries interwoven within each period emphasize the biographical dimension of Carroll's writing. Readers gain an understanding of the author's family and education, the evolution of the Alice books, and Carroll's later years through his own words and through important scholarly work on his faith, life, and his relationships with women and with Alice Hargreaves and her family. Reflecting the wealth of new scholarship on *Alice in Wonderland* and Lewis Carroll published since the last edition, Donald Gray has chosen eleven new critical works while retaining five seminal works from the previous edition. Two early pieces, an essay by Charles Dickens and a poem by Christina Rossetti, take a satirical look at children's literature. The nine new recent essays are by James R. Kincaid, Marah Gubar, Robert M. Poles, Jean Jacques Lecercle, Gilles Deleuze, Roger Taylor, Carol Mavor, Jean Gattégno, and Helena M. Pycior. The selected bibliography has been updated and expanded.

Exploring the intersections of digital humanities and African diaspora studies, how can scholars use digital tools to better understand the African diaspora across time, space, and disciplines, and how can African diaspora studies inform the practices of digital humanities? These questions are at the heart of this timely collection of essays about the relationship between digital humanities and Black Atlantic studies, offering critical insights into race, migration, media, and scholarly knowledge production. The *Digital Black Atlantic* spans the African diaspora's range from Africa to North America, Europe, and the Caribbean, while its essayists span academic fields from history and literary studies to musicology, game studies, and library and information studies. This transnational and interdisciplinary breadth is complemented by essays that focus on specific sites and digital humanities projects throughout the Black Atlantic, covering key debates. The *Digital Black Atlantic* asks theoretical and practical questions about the ways that researchers and teachers of the African diaspora negotiate digital methods to explore a broad range of cultural forms, including social media, open access libraries, digital music production, and video games. The volume further highlights contributions of African diaspora studies to digital humanities, such as politics and representation, power and authorship, the ephemerality of memory, and the vestiges of colonialist ideologies grounded in contemporary theory and praxis. The *Digital Black Atlantic* puts the digital humanities into conversation with African diaspora studies in crucial ways that advance both contributors.
